TABLE OF CONTENTS

v.16-17

NUMBER 1, JANUARY 1959

SAUER, M. E. and CHITTENDEN, A. C., Deoxyribonucleic acid content of cell nuclei in the neural tube of the chick embryo: Evidence for intermitotic migration of nuclei 1

FORSSBERG, A., LINGEN, C., ERNSTER, L. and LINDBERG, O., Modification of the X-irradiation syndrome by lycopene 7

NOYES, P. P. and SMITH, R. E., Quantitative changes in rat liver mitochondria following whole body irradiation 15

SAKAI, H. and DAN, K., Studies on sulfhydryl groups during cell division of sea urchin egg 24

ANDERSON, N. G., Studies on isolated cell components. X. Structure formation by clear liver protein solutions 42

MITCHISON, J. M. and WALKER, P. M. B., RNA synthesis during the cell life cycle of a fission yeast *Schizosaccharomyces pombe* 49

KANE, R. E. and HERSH, R. T., The isolation and preliminary characterization of a major soluble protein of the sea urchin egg 59

PRAMER, D., Absorption of antibiotics by plant cells. IV. Chloramphenicol . . 70

SYLVÉN, B., TOBIAS, C. A., MALMGREN, H., OTTOSON, R. and THORELL, B., Cyclic variations in the peptidase and catheptic activities of yeast cultures synchronized with respect to cell multiplication. 75

OTTOSON, R. and GLICK, D., Studies in histochemistry L. Measurement of water in histological structures by a direct microradiographic method 88

PURVIS, J. L., The fractionation of liver mitochondria with digitonin 98

PURVIS, J. L. and SLATER, E. C., The effect of magnesium on oxidative phosphorylation and mitochondrial adenosine triphosphatase 109

TROWELL, O. A., The culture of mature organs in a synthetic medium 118

DOUGLAS, T. A. and MUNRO, H. N., The occurrence of inactive amylase within the pancreatic cell and its significance 148

BÄCKSTRÖM, S., Studies on sulphydryl-containing substances in sea urchin embryos of various developmental trends. 165

HAGSTRÖM, B. E. and HAGSTRÖM, BRITT, The effect of decreased and increased temperatures on fertilization 174

HAGSTRÖM, B. E., The influence of jelly coat solution on sea urchin spermatozoa 184

OLSZEWSKA, M., Etude autoradiographique de l'influence de la kinétine sur l'incorporation d'adénine dans les cellules du méristème radiculaire d'*Allium cepa* 193

BIEBER, S., SPENCE, J. A. and HITCHINGS, G. H., Nucleic acids and their derivatives and the development of *Rana pipiens*. I. Oögenesis 202

BRIEF NOTES

ARGYRIS, B. F. and ARGYRIS, T. S., The stimulatory effect of Ehrlich ascites tumor transplanted adjacent to the mammary gland of adult ovariectomized mice 215

BURLINGTON, H., Sex chromatin in cultured cells 218

NUMBER 2, February 1959

Buffaloe, N. D., Some effects of colchicine on cells of *Chlamydomonas eugametos* Moewus 221
Toschi, G., A biochemical study of brain microsomes 232
Hanzon, V. and Toschi, G., Electron microscopy on microsomal fractions from rat brain 256
Maggio, R., Cytochrome oxidase activity in the mitochondria of unfertilized and fertilized sea urchin eggs 272
Prescott, D. M., Variations in the individual generation times of *Tetrahymena geleii* HS 279
Barer, R. and Dick, D. A. T., Interferometry and refractometry of snail amoebocytes 285
Anderson, N. G., Canning, R. E., Anderson, M. L. and Shellhamer, R. H., Studies on isolated cell components. XI. Rat blood proteins 292
Hagström, B. E. and Runnström, J., Refertilization of partially fertilized sea urchin eggs 309
Dabrowska-Piaskowska, K., Observations on the histoformative capacities of tumor cells dissociated by digestion with trypsin 315
Thomason, D. and Schofield, R., Calcium exchanges between cells and environment I. Ehrlich ascites tumour cells of mice, *in vivo* 324
Wegelius, O. and Boseila, A.-W. A., Effect of water and physiological saline solution on mast cells in the peritoneal fluid of the rat and hamster. . . 335
Laurila, E., Marttinen, J., Nihtilä, R. and Uotila, U., A recording microspectrophotometer 343
Ohno, S., Kaplan, W. D. and Kinosita, R., The centromeric and nucleolus-associated heterochromatin of *Rattus norvegicus* 348
Kruszynski, J. and Ostrowski, K., Golgi structure of mouse intestinal ephithelium examined by refractometry and interferometry 358
Savage, J. R. K. and Evans, H. J., The effect of low temperature on the mitotic cycle of root meristem cells of *Vicia faba* 364
Larsson, K. S., Boström, H. and Carlsöö, S., Studies on the closure of the secondary palate. I. Autoradiographic study in the normal mouse embryo 379
Lingen, C., Ernster, L. and Lindberg, O., The promoting effect of lycopene on the non-specific resistance of animals 384
Lindahl, P. E., On the antigenic properties of sperm antagglutins 394
Nelson, L., Cytochemical studies with the electron microscope. II. Succinic dehydrogenase in rat spermatozoa 403
Kit, S., Fiscus, J., Ragland, R. S., Graham, O. L. and Gross, A. L., Biochemical studies on the Chinese hamster (22 chromosomes) and the Syrian hamster (44 chromosomes) 411

BRIEF NOTES

Fimian, W. J., Jr., Leucocyte infiltration in localized regions of X-rayed amphibian limb tissues 418
Hiramoto, Y., Changes in electric properties upon fertilization in the sea urchin egg 421
Cohn, N. S., The effective wavelength promoting light reversal of carbon monoxide-inhibited chromosome rejoining 424

Bhuiyan, N. I. and Shafiq, S. A., The differentiation of the posterior poleplasm in the housefly *Musca vicina* Macquart 427
Balinsky, B. I., An electron microscopic investigation of the mechanisms of adhesion of the cells in a sea urchin blastula and gastrula 429
Naora, H., Richter, G. and Naora, H., Further studies on the synthesis of RNA in enucleate *Acetabularia mediterranea* 434
Okada, T. S., Tracer study on the reconstitution of cartilage from dissociated cells 437
di Sabato, G., The relationship between the temperature and the effect of 2,4 dinitrophenol on the swelling of isolated mitochondria 441
Hultin, T. and von der Decken, A., The transfer of soluble polynucleotides to the ribonucleic acid of rat liver microsome. 444
Runnström, J., Inhibitory and anti-inhibitory effects on the activity of the centrosome in the sea urchin egg 448
Hess, O., Osmiumtetroxyd als Fixierungsmittel für ungesättigte Fettsäuren und tierische Gewebe 452
Löw, H., The effects of atebrin and chlorpromazine on some adenosine triphosphate-splitting enzymes 456
McGrath, R. A., Oscillation of the nucleus and mitotic figure in the neuroblast of the grasshopper *Chortophaga viridifasciata* (De Geer) 459
Ohno, S., Kovacs, E. T. and Kinosita, R., On the X-chromosomes of mouse mammary carcinoma cells 462
Cerroni, R. E. and Neff, R. J., Inhibition of the Feulgen reaction by ions . 465

NUMBER 3, March 1959

Lajtha, L. G., Noyes, W. D. and Oliver, R., On the utilisation of 5-amino-4-imidazole carboxamide (AICA) for purine synthesis by bone marrow cells *in vitro* 471
Rinaldini, L. M., An improved method for the isolation and quantitative cultivation of embryonic cells 477
Quattrone, P. D., Comparison of the nucleic acid contents in various tissues of mice. Lymph nodes and thymus of non-leukemic and leukemic AK mice, and livers of normal C3H mice 506
McCarty, K. S. and Graff, S., Some aspects of nitrogen metabolism in strain L cell cultures 518
Gelfant, S., A study of mitosis in mouse ear epidermis *in vitro*. I. Cutting of the ear as mitotic stimulant 527
Kelly, J. W. and Bloom, G., A quantitative spectrophotometric study of the mast cell 538
Duthie, R. B., Merwin, R. M. and Wolff, J., The functional activity of thyroid isografts within diffusion chambers in mice 565
Rustad, R. C., An interference microscopical and cytochemical analysis of local mass changes in the mitotic apparatus during mitosis 575
Armstrong, J. A. and Hopper, P. K., Fluorescence and phase-contrast microscopy of human cell cultures infected with adenovirus 584
Holtzer, H., Abbott, J. and Cavanaugh, M. W., Some properties of embryonic cardiac myoblasts 595
Sisken, J. E., The synthesis of nucleic acids and proteins in the nuclei of *Tradescantia* root tips 602

BELL, L. G. E., The combination of a portion of the cytoplasmic ribonucleic acid compounds with mercury 615
NEWTON, A. A. and WILDY, P., Parasynchronous division of HeLa cells . . . 624
DELAMATER, E. D., A cytological and chemical analysis of the bacterial nucleus I. A method for the isolation of nuclei from *Bacillus megaterium* and the cytology of the isolated structures 636
PIGON, A. and EDSTRÖM, J. E., Nucleic acid changes during starvation and encystment in a ciliate (*Urostyla*) 648
BURNSTOCK, N. and PHILPOT, J. St. L., A functional test of nuclear suspension media, based on reversible enucleation of *Amoeba* 657

BRIEF NOTES

KELLNER, G., BRODA, E., SUSCHNY, O. and RÜCKER, W., Radiation damage in tissue culture 673
BOMSTEIN, R. A. and STEBERL, E. A., Factor in crude egg lecithin inhibitory for thermal shock of bovine spermatozoa 675
PHILLIPS, H. J. and ANDREWS, R. V., Some protective solutions for tissue cultured cells 678
BRANDES, D., BELT, W. D. and BOURNE, G. H., Preliminary remarks concerning the fine structure of the epithelium of the coagulating gland . . . 683
LEEMAN, L., La teneur en DNA de la médullo-surrénale après splanchnicectomie bilatérale et après injection d'insuline chez le rat blanc 686
MCALEAR, J. H. and EDWARDS, G. A., Continuity of plasma membrane and nuclear membrane 689
AVERS, C. J. and GRIMM, R. B., Intergeneric differences in activity of glucose-6-phosphatase in grass root epidermis 692
CRUICKSHANK, C. N. D., COOPER, J. R. and CONRAN, M. B., A new tissue culture chamber 695
